

# SafeLift and AppAid

**By:** Daniya Zafar | Fred Mose | Layomi Dele – Dare | Wenhao Zhang

- There are about 0.9 M forklifts in US of which 11% are involved in accidents
- 70% of these can be avoided by proper training and policy

## What is *SafeLift*?

- System designed to reduce the risk of collision between pedestrians and moving vehicles in your workplace

## What is *AppAid*?

- An app designed to compliment *SafeLift* by providing training and managing incident locations

## Future Work

- Active RFID tags
- Auto generate hit report

## Conclusion

- *PowerLift* ensures employee safety by providing affordable solution
- *SafeLift* and *AppAid* come in an easy-to-install kit
- With *PowerLift*, you don't have to be a statistic!
